The Cypher UAV is able to fly "hands-off," instead of being flown directly by a ground operator

The Predator is 27 feet long with a wingspan of approximately 49 feet

UAVs can carry payloads ranging from reconnaissance equipment to missiles

Above: Tonopah was expanded dramatically to accomodate the F-117A force as it built up to become a Wing-strength unit. The runway is aligned roughly South-East/North-West (300° and 120°).

and improvement program of its own, but remained the after-duty hangout for the Black Jet pilots.

The airfield improvement program was completed in July 1982. The revitalization of the Tonopah Test Range was kept completely secret, and the money spent was carefully hidden in the defense budget.

Below: A Tonopah-based F-117A briefly enters a pool of light as it passes through double gates in the floodlit and heavily guarded security fences, separating the central area of the base from the runway.

Las Vegas, Nevada

LAV-55-16

May 18, 1955

Office of the Manager
Telephone Las Vegas 6350

FOR IMMEDIATE RELEASE

Seth R. Woodruff, Jr., Manager of the Atomic Energy Commission's Las Vegas Field Office, announced today that he has instructed the Reynolds Electrical and Engineering Co., Inc. to begin preliminary work on a small, satellite Nevada Test Site installation.

Some preliminary work is already under way at that location, which is a few miles northeast of Yucca Flat and within the Las Vegas Bombing and Gunnery Range.

The installation will include a runway, dormitories, and a few other buildings for housing equipment. All construction will be essentially temporary.

SAFETY IS COMMON SENSE

COURTESY N.S.C.

VOL. IV NO. 2 — MERCURY, NEVADA — FRIDAY, JANUARY 15, 1960

SECURITY NOTE

On a sample day, Tuesday, December 29, 1959, between the hours of 11:00 a.m., and 1:00 p.m. thirty-one (31) persons were observed in the Cafeteria who were either not wearing their badges or wearing them improperly. Many of these persons became indignant at "wasting" their lunch hour when they were refused entrance to the cafeteria and had to return to their office for a badge.

A very simple solution to this problem is to obey AEC regulations in wearing your badge the entire time you are on the Test Site. Wear it on the upper portion of your body, and on the outer portion of your clothing.

NTS FEDERAL CREDIT UNION

Effective immediately the office hours of the NTS Federal Credit Union will be as follows:

Closed Mondays
Open 1:00 p.m. to 5:00 p.m. Tuesday thru Friday
Open 9:00 a.m. to 5:00 p.m. Saturday

Watch the mails for information on our Annual Meeting. At that time new Officers will be elected and a dividend declared.

RELIGIOUS SERVICES

Will personnel interested in attending religious services at Mercury on Sundays kindly notify the Base Support Coordinator's Office, Telephone [redacted]

If sufficient interest develops, the possibility of arranging for services will be explored.

AREA 51 TELEPHONE NUMBERS

Effective January 14, 1960, the following changes in Area 51 telephone numbers were made:

Base Commander's Office [redacted]

Security Office [redacted]

REECo [redacted]

COMMERCIAL SERVICE STATION

The proprietor of the Commercial Service Station wishes to announce that all products have been changed from Richfield to Standard Oil and all Standard Oil Company Credit Cards will be honored.

NEVADA DRIVERS LICENSE

A Nevada State Drivers License Examiner will be at the Mercury Sheriff's Office Thursday and Friday, January 21 and 22.

***

Some men have a very amiable way of criticizing their wives. They boast that the little women made them what they are.

Bulletin Board

Mercury, Nevada

An Information Bulletin for employees of the Atomic Energy Commission's Nevada Test Site.

September 17, 1965

Published every Friday by Reynolds Electrical & Engineering Company, Inc., NTS News Office.

A SPOT-BID SALE OF GOVERNMENT VEHICLES will be held September 28 in the Patio Room of the Mercury Rec Hall. Of the 200 vehicles offered, 134 are 1/2-ton pickups and 22 are 3/4-ton pickups; sedans, station wagons, carryalls, cab and chassis vehicles, 1-ton pickups, panel trucks, a jeep and a sedan delivery truck will also be sold.

REECo Excess Disposal is conducting the sale, and Superintendent Bill Yakey says this is the first time the spot-sale method has been used by the Section. Auctions held in the Salvage Yard have been the usual means for selling government vehicles retired under the "age-use" formula. In this spot-bid sale, a potential buyer will enter his bid on a bid card; all bid cards for that item will be compared and the highest bid designates the buyer. It's a one-bid deal.

The vehicles may be inspected in the Mercury Salvage Yard September 20-28. The sale announcement, which lists all the vehicles offered, may be obtained at the yard or at the Excess Disposal office at the rear of Warehouse 6. Bids may be submitted in advance of the sale; the official bid-cards must be used. All bidding instructions, sales procedure and conditions of sale are given in the 20-page sale announcement.

The sale is open to the public and will start at 9 a.m. in the Rec Hall. It will be fast-paced and will continue until completed. All items will be offered individually. The bid cards for each item will be evaluated in turn, the high bid will be selected and announced. The Excess Disposal staff will have a busy day.

"See them yourself! Don't call us!," says the cover page of the sale announcement. And the Excess Disposal people mean just that. They'll be glad to give NTSers, who want to bid on any of the vehicles, information and help on the bidding procedures, but don't ask them about specific vehicles. Your own inspection and judgment is what counts in making a good and equitable bid.

Salty Says:

Prevent fallout

Wear seatbelts

A horseshoe or a rabbit's foot has never prevented an injury. Yet many people feel that they have taken a good safety precaution by installing safety belts—and from that point on ride blithely around sitting on them!

An un-buckled seat belt is no better than a rabbit's foot.

"I wear them out on the road, but around town they're too much trouble." This statement has become a cliche. Statistically, half of all injury-producing accidents occur at impact speeds of 40 miles per hour or less—in other words "around town."

Statistics also tell us that one out of two people alive today will be involved in an automobile colli-

AREA 51 WINS SLOW-PITCH TOURNAMENT—The powerful Area 51 8-Ballers captured the 1965 Slow-Pitch Playoff Tournament with a 14-4 victory over the Area 12 Mets Monday night. The championship game marked the fifth win without a loss for Area 51. Al King and Jerry Simmons each collected three hits for the 8-Ballers while Richie Lucas and Frank Nemets chipped in with home runs. Area 51 came up with nine big runs in the fourth inning to put the game out of reach.

Area 12 Mets deserve a great deal of credit for their fine showing as they finished the highest of any team from the Mercury League. Dick Trudall, John Halsey, and Ben Bradley each had two hits in a losing cause for the Mets.

Team trophies will be awarded to Area 51 and Area 12, and to third-place Hycalog by the Mercury Softball Association.

TOURNAMENT ALL-STARS NAMED—Bob Habig, DOD pitcher, was voted the Most Valuable Player in the 1965 Slow-Pitch Playoff Tournament in balloting by the All-Star Selection Committee. Other players named to the All-Star team are:

Pitcher	Bob Smith	Los Viejos
Catcher	Bob Minor	Hycalog
First Base	Jim Heishman	Area 12
Second Base	Ralph Carlson	Hycalog
Third Base	John Halsey	Area 12
Shortstop	Ben Bradley	Area 12
Left Field	Al King	Area 51
Right Field	Bob Parnell	Hycalog
Center Field	Jerry Rice	Area 12
Short Field	Lippy Lipscomb	Area 51

Team Sportsmanship—Los Viejos

Each member of the All-Star team will receive an individual award donated by the Mercury Softball Assoc.

DOD WINS REGULAR SEASON TITLE of the 1965 Mercury Slow-Pitch Softball League by defeating the Mercury Rats in a two-out-of-three playoff between the winners of each half of the regular season. DOD won the title by defeating the Rats in two straight games by scores of 23-2 and 14-4. Bruce Gaston pounded out three consecutive home runs for DOD in the final game.

CINCINNATI ROYALS-SAN FRANCISCO WARRIORS BASKETBALL game tickets are available to NTSers through the Mercury Recreation Department. The National Basketball League teams will play at the Las Vegas Convention Center Wednesday, September 29. An excellent selection of reserved seats on the main floor is available at $4 each. General admission tickets are priced at $2. To reserve tickets, phone the Recreation Department, 6-9400, before September 24.

THE CHAMPIONSHIP HARE SCRAMBLES, an annual California-Nevada motorcycle race event over desert terrain, will be presented Sunday by the Vegas Valley Motorcycle Club. Lime markers from the Las Vegas Strip (at Flamingo Road) will point the way to the course—follow the markers out to the Lake Mead area. The races, which include all classes from 50 cc up, start at 8 a.m. Refreshments will be served at the race site throughout the day.

Jack and Vonnie North, Wally Richen, Don Slagel and other NTSers active with the club have been busy with preparations. None of the club members will be racing; this is a big event and all will be helping with the scoring and other duties throughout the day.

ORDER NOT TO ENTER OR REENTER MILITARY RESERVATION

TO: STRANO, ANDREW

1. You are hereby removed as a trespasser from this installation, a military reservation. You are ordered not to reenter the confines of this installation without the written permission of the Commander or an officer designated by him to issue a permit of reentry.

2. Your attention is invited to Title 18 U.S.C. 1382, entitled: "Entering Military, Naval or Coast Guard Property", which states:

"Whoever, within the jurisdiction of the United States, goes upon any military, naval or Coast Guard reservation, post, fort, arsenal, yard, station, or installation, for any purpose prohibited by law or lawful regulation; or whoever reenters or is found within any such reservation, post, fort, arsenal, yard, station, or installation after having been removed therefrom or ordered not to reenter by any officer or person in command or charge thereof shall be fined under this title or imprisoned no more than six months or both. June 25, 1948 - C.645, 62 Stat. 765."

Rachel
D.C. Day had started his Nevada Farms in the Sand Springs Valley in the mid 1960s, after moving here from Lubbock, Texas. Day subdivided a portion of his farm in 1973, eventually creating the town of Rachel in 1978. The town was named for Rachel Jones, the first child born in the community. It provided housing for the Tempiute Tungsten Mine. This mine, originally located by Wesley Koyen in 1937, was operated by Union Carbide from 1974 until 1988. With the closing of the mine, many residents left, but the town has continued. Today it is best known for its location on Nevada's Extra-Terrestrial Highway, and it's proximity to the Nevada Test Site and Groom Lake.
Dedicated this 26th day of September, 2004
Queho Posse, Chapter 1919

On the eighteenth day of April, A.D. 1996,
Twentieth Century Fox hereby dedicates
this time capsule and beacon
for visitors from distant stars,
to the State of Nevada and the
"Extraterrestrial Highway."
This time capsule will serve as a beacon,
to be opened in the year A.D. 2050,
by which time interplanetary travelers
shall be regular guests of our planet Earth.
Governor Bob Miller of the State of Nevada
Twentieth Century Fox Film Corporation
